

# **BUG REPORT**

## **Project Name**

User Management System Testing

## **Prepared By**

Vamshi Krishna K  
Tester Intern

## **Date**

15 June 2026

---

## **Defect 1**

### **Bug ID:**

BUG-001

### **Title:**

Password field displays entered characters instead of masking them.

### **Module:**

Login

### **Environment:**

- OS: Windows 11
- Browser: Google Chrome
- Application Version: v1.0

### **Severity:**

High

### **Priority:**

P1

**Preconditions:**

User should be on the Login page.

**Steps to Reproduce:**

1. Open the Login page.
2. Click on the Password field.
3. Enter a password.

**Expected Result:**

Entered password should appear as dots or asterisks.

**Actual Result:**

Password is displayed in plain text.

**Status:**

New

**Attachment:**

Screenshot to be attached.

---

## Defect 2

**Bug ID:**

BUG-002

**Title:**

Registration form allows submission without entering an email address.

**Module:**

Registration

**Environment:**

- OS: Windows 11
- Browser: Google Chrome
- Application Version: v1.0

**Severity:**

High

**Priority:**

P1

**Preconditions:**

Registration page should be accessible.

**Steps to Reproduce:**

1. Open the Registration page.
2. Fill all mandatory fields except Email.
3. Click on Register.

**Expected Result:**

System should display "Email is required."

**Actual Result:**

Registration is completed successfully without an email address.

**Status:**

New

**Attachment:**

Screenshot to be attached.

---

## Defect 3

**Bug ID:**

BUG-003

**Title:**

User can access dashboard after logout using browser Back button.

**Module:**

Session Management

**Environment:**

- OS: Windows 11
- Browser: Google Chrome
- Application Version: v1.0

**Severity:**

Critical

**Priority:**

P1

**Preconditions:**

User should be logged into the application.

**Steps to Reproduce:**

1. Login to the application.
2. Navigate to Dashboard.
3. Click Logout.
4. Press the browser Back button.

**Expected Result:**

User should be redirected to the Login page.

**Actual Result:**

Dashboard is displayed even after logout.

**Status:**

New

**Attachment:**

Screenshot to be attached.

---

# Defect 4

**Bug ID:**

BUG-004

**Title:**

System allows duplicate registration using an existing email address.

**Module:**

Registration

**Environment:**

- OS: Windows 11
- Browser: Google Chrome
- Application Version: v1.0

**Severity:**

Medium

**Priority:**

P2

**Preconditions:**

An account should already exist with the email address used.

**Steps to Reproduce:**

1. Open Registration page.
2. Enter details using an existing email address.
3. Click Register.

**Expected Result:**

System should display "Email already exists."

**Actual Result:**

Duplicate account is created successfully.

**Status:**

New

**Attachment:**

Screenshot to be attached.

---

## Defect 5

**Bug ID:**

BUG-005

**Title:**

Profile picture upload accepts unsupported file formats.

**Module:**

Profile Management

**Environment:**

- OS: Windows 11
- Browser: Google Chrome
- Application Version: v1.0

**Severity:**

Medium

**Priority:**

P2

**Preconditions:**

User should be logged into the application.

**Steps to Reproduce:**

1. Navigate to Profile page.
2. Click Upload Profile Picture.
3. Select an ".exe" file.
4. Click Upload.

**Expected Result:**

Only supported image formats should be accepted.

**Actual Result:**

Unsupported file is uploaded successfully.

**Status:**

New

**Attachment:**

Screenshot to be attached.

---

## Defect 6

**Bug ID:**

BUG-006

**Title:**

Search functionality displays incorrect user details.

**Module:**

User Search

**Environment:**

- OS: Windows 11
- Browser: Google Chrome
- Application Version: v1.0

**Severity:**

Medium

**Priority:**

HIGH

**Preconditions:**

User should be logged into the application.

**Steps to Reproduce:**

1. Navigate to User Search page.
2. Search for an existing user.
3. Observe the displayed information.

**Expected Result:**

Correct details of the searched user should be displayed.

**Actual Result:**

Details of another user are displayed.

**Status:**

New

**Attachment:**

Screenshot to be attached.

---

## Defect Summary

| Bug ID  | Module             | Severity | Priority | Status |
|---------|--------------------|----------|----------|--------|
| BUG-001 | Login              | High     | P1       | New    |
| BUG-002 | Registration       | High     | P1       | New    |
| BUG-003 | Session Management | Critical | P1       | New    |
| BUG-004 | Registration       | Medium   | P2       | New    |
| BUG-005 | Profile Management | Medium   | P2       | New    |
| BUG-006 | User Search        | Medium   | P3       | New    |

---

## Conclusion

Six defects were identified during the execution of functional testing for the User Management System. These defects have been documented according to defect reporting standards and should be reviewed by the development team for resolution. Once fixed, the defects will undergo retesting and regression testing before closure.
