

Regression Testing Report

Project

AI/ML Web Application

Testing Type

Regression Testing

Date

18 June 2026

Objective

To verify that previously working functionalities continue to work correctly after bug fixes, enhancements, or code modifications.

Regression Test Scope

The following modules were retested:

- Authentication
- Registration
- Dashboard
- File Upload
- Prediction Engine
- Reports
- API Services
- Session Management

Regression Test Cases Execution

TC ID	Module	Test Scenario	Expected Result	Actual Result	Status
RT-001	Login	Login with valid credentials	Successful login	Successful login	Pass
RT-002	Login	Login with invalid credentials	Error message displayed	Error displayed	Pass
RT-003	Registration	New user registration	User created successfully	User created	Pass
RT-004	Registration	Duplicate email registration	Validation error shown	Validation shown	Pass
RT-005	Dashboard	Dashboard accessibility after login	Dashboard loads correctly	Loaded successfully	Pass
RT-006	Dashboard	Direct URL access without login	Redirect to Login page	Redirected correctly	Pass
RT-007	File Upload	Upload CSV file	File uploaded successfully	Upload successful	Pass
RT-008	File Upload	Upload unsupported file (.exe)	Upload blocked	Upload blocked	Pass
RT-009	Prediction	Generate prediction	Prediction generated	Generated successfully	Pass
RT-010	Prediction	Prediction without dataset	Error displayed	Error displayed	Pass
RT-011	Reports	Generate report	Report generated	Generated successfully	Pass
RT-012	Reports	Download report	Report downloaded	Download successful	Pass
RT-013	API	GET Request Validation	Status 200	Status 200	Pass
RT-014	API	POST Request Validation	Status 201	Status 201	Pass
RT-015	API	PUT Request Validation	Status 200	Status 200	Pass
RT-016	API	DELETE Request Validation	Status 204	Status 204	Pass
RT-017	Session	Logout functionality	Session terminated	Session terminated	Pass
RT-018	Navigation	Menu navigation	Correct page opens	Opened correctly	Pass
RT-019	Security	Session timeout validation	User redirected to login	Redirected successfully	Pass
RT-020	Performance	Dashboard load verification	< 3 seconds	2.2 seconds	Pass

Regression Testing Summary

Metric	Count
Total Regression Test Cases	20
Executed	20
Passed	20
Failed	0
Blocked	0
Pass Rate	100%

Defect Verification

Bug ID	Description	Previous Status	Current Status
BUG-001	Unsupported file upload accepted	Open	Fixed & Verified
BUG-002	Dashboard accessible without login	Open	Fixed & Verified

Test Metrics

Metric	Result
Functional Stability	100%
API Stability	100%
Security Validation	Passed
Regression Coverage	100%
Critical Defects	0
High Severity Defects	0

Conclusion

Regression testing has been completed successfully on all critical modules. Previously reported defects were fixed and verified. No new issues were identified during testing.
