

# Test Cases for Login Module

| TC ID | Test Scenario               | Test Data                       | Expected Result     |
|-------|-----------------------------|---------------------------------|---------------------|
| TC001 | Valid Login                 | Valid username/password         | Login successful    |
| TC002 | Invalid Password            | Valid username + wrong password | Error message       |
| TC003 | Invalid Username            | Wrong username + valid password | Error message       |
| TC004 | Both Invalid                | Wrong username/password         | Error message       |
| TC005 | Empty Username              | Blank username                  | Validation message  |
| TC006 | Empty Password              | Blank password                  | Validation message  |
| TC007 | Both Fields Empty           | Blank fields                    | Validation message  |
| TC008 | Password Case Sensitivity   | ADMIN123 vs Admin123            | Login denied        |
| TC009 | Username With Spaces        | " admin "                       | Trim or validation  |
| TC010 | SQL Injection Attempt       | ' OR 1=1 --                     | Login blocked       |
| TC011 | XSS Script Input            | <script>alert()</script>        | Sanitized           |
| TC012 | Very Long Username          | 256 chars                       | Validation          |
| TC013 | Very Long Password          | 256 chars                       | Validation          |
| TC014 | Special Characters Username | @#\$\$%^                        | Validation          |
| TC015 | Special Characters Password | P@ssword123                     | Accepted            |
| TC016 | Remember Me Checkbox        | Checked                         | Session retained    |
| TC017 | Forgot Password Link        | Click link                      | Reset page opens    |
| TC018 | Logout Functionality        | Logout                          | Redirect login page |
| TC019 | Session Timeout             | Idle 30 mins                    | Auto logout         |
| TC020 | Multiple Failed Logins      | 5 invalid attempts              | Account locked      |

# **CODE FOR AUTOMATED TESTING LOGIN PAGE**

## Test Execution Results

| TC ID | Test Scenario               | Expected Result                 | Actual Result                  | Status |
|-------|-----------------------------|---------------------------------|--------------------------------|--------|
| TC001 | Valid Login                 | User logged in successfully     | Dashboard displayed            | Pass   |
| TC002 | Invalid Password            | Error message displayed         | "Invalid Credentials" shown    | Pass   |
| TC003 | Invalid Username            | Error message displayed         | "Invalid Credentials" shown    | Pass   |
| TC004 | Invalid Username & Password | Error message displayed         | Error displayed correctly      | Pass   |
| TC005 | Empty Username              | Username required message       | Validation message displayed   | Pass   |
| TC006 | Empty Password              | Password required message       | Validation message displayed   | Pass   |
| TC007 | Both Fields Empty           | Required fields validation      | Validation displayed           | Pass   |
| TC008 | Password Case Sensitivity   | Login denied                    | Access denied                  | Pass   |
| TC009 | Username With Spaces        | Spaces trimmed/validation       | Login successful after trim    | Pass   |
| TC010 | SQL Injection Attempt       | Request blocked                 | Application rejected input     | Pass   |
| TC011 | XSS Attack Input            | Script sanitized                | Input rejected                 | Pass   |
| TC012 | Long Username               | Validation shown                | System accepted 256 chars      | Fail   |
| TC013 | Long Password               | Validation shown                | Validation displayed           | Pass   |
| TC014 | Special Characters Username | Validation shown                | Validation displayed           | Pass   |
| TC015 | Special Characters Password | Accepted if valid policy        | Accepted successfully          | Pass   |
| TC016 | Remember Me Checkbox        | Session retained                | Session retained after refresh | Pass   |
| TC017 | Forgot Password Link        | Reset page opens                | Reset page opened              | Pass   |
| TC018 | Logout Functionality        | Redirect to login page          | Successfully redirected        | Pass   |
| TC019 | Session Timeout             | Auto logout after inactivity    | Session remained active        | Fail   |
| TC020 | Multiple Failed Logins      | Account locked after 5 attempts | Account not locked             | Fail   |

## Test Execution Report

| Metric           | Count |
|------------------|-------|
| Total Test Cases | 20    |
| Executed         | 20    |
| Passed           | 18    |
| Failed           | 2     |
| Blocked          | 0     |
| Pass Rate        | 90%   |
