

Regression Testing Report

Scope of Regression Testing

The following modules were retested:

Module	Coverage
Login	Authentication
Logout	Session Handling
Forgot Password	Password Recovery
Input Validation	Form Validation
Security	SQL Injection & XSS
Session Management	Timeout & Remember Me

Regression Test Cases Executed

RT ID	Test Scenario	Previous Status	Current Status	Result
RT001	Valid Login	Pass	Pass	Pass
RT002	Invalid Password	Pass	Pass	Pass
RT003	Invalid Username	Pass	Pass	Pass
RT004	Empty Username	Pass	Pass	Pass
RT005	Empty Password	Pass	Pass	Pass
RT006	Both Fields Empty	Pass	Pass	Pass
RT007	Forgot Password Link	Pass	Pass	Pass
RT008	Logout Functionality	Pass	Pass	Pass
RT009	Remember Me Feature	Pass	Pass	Pass
RT010	SQL Injection Validation	Pass	Pass	Pass
RT011	XSS Validation	Pass	Pass	Pass
RT012	Password Case Sensitivity	Pass	Pass	Pass
RT013	Long Username Validation	Fail	Pass	Fixed
RT014	Long Password Validation	Pass	Pass	Pass
RT015	Special Character Username	Pass	Pass	Pass
RT016	Special Character Password	Pass	Pass	Pass
RT017	Session Timeout	Fail	Pass	Fixed
RT018	Account Lock After 5 Attempts	Fail	Pass	Fixed
RT019	Dashboard Access After Login	Pass	Pass	Pass
RT020	Unauthorized URL Access	Pass	Pass	Pass

Defect Retesting Results

BUG-001

Issue: Username field accepted more than 255 characters.

Retest Result:

- Validation added.
- User cannot enter more than 255 characters.

Status: Closed

BUG-002

Issue: Session timeout not working.

Retest Result:

- Session automatically expires after 30 minutes of inactivity.
- User redirected to login page.

Status: Closed

BUG-003

Issue: Account lock mechanism not working.

Retest Result:

- Account locked after 5 failed login attempts.
- Security message displayed.

Status: Closed

Regression Testing Summary

Metric	Count
Total Regression Tests	20
Executed	20
Passed	20
Failed	0
Blocked	0
Defects Reopened	0

Conclusion

All previously reported defects were successfully fixed and verified. No new defects were identified during regression testing. Existing functionalities continue to work correctly after the latest changes.
