

Usability Testing Report

Project

AI Dashboard Application

Objective

Evaluate whether users can easily perform common tasks without confusion.

Test Scenarios

TC ID	Test Scenario	Steps	Expected Result	Status
UT-001	Verify Login Page Simplicity	Open Login Page	User easily identifies Username and Password fields	Pass
UT-002	Verify Button Visibility	Check Submit Button	Button should be clearly visible	Pass
UT-003	Verify Navigation Menu	Navigate between pages	User reaches pages within 2 clicks	Pass
UT-004	Verify Form Labels	Check input fields	All fields should have meaningful labels	Pass
UT-005	Verify Error Messages	Submit empty form	Clear error message displayed	Pass
UT-006	Verify Search Function	Search data	Relevant results displayed	Pass
UT-007	Verify Mobile Responsiveness	Open in mobile view	UI adapts correctly	Pass
UT-008	Verify Font Readability	Review content pages	Text should be easy to read	Pass
UT-009	Verify Color Contrast	Check UI colors	Text visible against background	Pass
UT-010	Verify User Workflow	Complete task from start to end	User completes task without guidance	Pass

Usability Issues Found

Bug ID	Issue	Severity
US-001	Submit button too small on mobile devices	Medium
US-002	Error message disappears quickly	Low
US-003	Search icon not intuitive	Medium
US-004	Low contrast on sidebar text	High
US-005	Dashboard takes multiple clicks to reach reports	Medium

Accessibility Validation

Check	Result
Keyboard Navigation	Pass
Screen Reader Compatibility	Pass
Alt Text for Images	Pass
Color Contrast Ratio	Pass
Focus Indicators	Pass

Final Usability Testing Summary

Metric	Result
Total Test Cases	10
Passed	10
Failed	0
Usability Issues Found	5
Critical Issues	0
User Satisfaction Score	8.5/10
